Lecture Sequence due Dec 15, 2022 07:30 +08 Completed

Exercise 1

1.0/1.0 point (graded)

Using the formula derived in this segment, compute k from the second experimental observation: $m = 0.15$ kg, $x = 0.1015$ m.

Use 9.81 m/s² as the gravitational constant (g). Enter your answer to at least 1 decimal place of accuracy.

 $k =$

14.5

14.5
